TOTAL NUMBER of participants and how many are external to your organization	56 (all external)
PROGRAMME description	See e-civeles Appendix 2 multiplier event Udine27 09 2019 agenda.pdf and e-civeles Appendix 3 multiplier event Udine 27092019 photos.pdf
FEEDBACK OF THE PARTICIPANTS	56 participants attended the multiplier event of the “e-Civeles - Digital Competences and Intercultural Values in e-Learning Environments project”. 3 of them came from the organization Die Kärntner Volkshochschulen based in Klagenfurt, Austria, which is the Association of Adult Education Centres in Carinthia, a non-profit association with eight Adult Education Centres in the region of Carinthia, Austria. All participants were contacted via email and/or telephone through their organization/institutions. The local participants (53) came from the province of Udine. They belong to: Municipalities (3 participants), Federation of Italian Employers (1 participant),

	<p>Universities (1 participant), health/care services providers (7 participants), school/adult education (13 participants), ONG/SME (28 participants). All of them did not know the project e-Civeles except for the information given in the invitation to the multiplier event (through presentations and leaflet).</p> <p>They were very interested in attending the event to know more about the project and to know more in the field of digital competences and e-learning. What they mostly got from the event was information about the Erasmus+ programme possibilities, information about the products of the e-Civeles project, an overview on how e-learning can be supported by innovative teaching methodologies, information on how intercultural values can be approached and implemented in e-learning environments. They were impressed by how game-based learning can be important.</p>
