

Multiplier event report USE

Digital Competences and Intercultural Values in e-Learning Environments (e-Civeles) project

# Multiplier Event Report

## USE, Portugal

On 18<sup>th</sup> November 2019 USE organised a Multiplier Event for the e-Civeles project, where we invited partner institutions and local stakeholders. We invited from the local community institutions, including senior institutions, youth associations, public institutions, the municipality, foundations, media companies, students' institutions from university of Évora, federations and companies. From that institutions we had a total 50 participants.

Our event had a small introduction to the project and a real exploitation of the game in laptops. We had 4 laptops available, so we divided the group so that all could try the game for some minutes. The program was carried out with the assistance of USE colleagues, in collaboration with young volunteers from Mundus Intercultural association.

The main aspects of the multiplier event were the following:

- Reception of the participants
- Welcome by the President of USE
- Presentation of the E-Civeles Project
- Virtual experience – Play the game
- Closing and coffee break

### Feedback and evaluation

Participants provided feedback about the game, the site, the project and the event. About the game, some persons found it difficult to manage and to collect the photos, although it was found very interesting the fact that the cities in 3D are realistic based on the cities blueprints. They also reported some smaller technical issues, which we collected and forwarded to the coordinator for correction. We received very positive feedbacks about the game databased that we presented on the project general presentation.

Some of our senior students found it interesting, informative and useful. All in all, participants were very satisfied with the event and went home grateful for having the opportunity.

The following pages contain the participant list including the signatures, as well as a couple of photos created during the event.
