Report of the multiplier events on the European Senior SocialEntrepreneurship Project

Introduction

QUALED in Slovakia arranged three multiplier events for SSE project. We organized two separate online events in November and December 2021, one and a half hours per event, where a total of 15 stakeholders and learners attended the events, and a face to face multiplier event in December.. The lists of participants can be found attached.

Due to the Covid-19 situation, we arranged most of the events online. We decided to do this, because the Coronavirus situation started to worsen again in November 2021 and the number of infections increased across Slovakia. One event we planned in cooperation with County Library in Žilina specifically for the senior citizens was to take place on December 17th face to face, but it had to be canceled, as pandemic measures in Slovakia no longer allowed it.

The program of the events

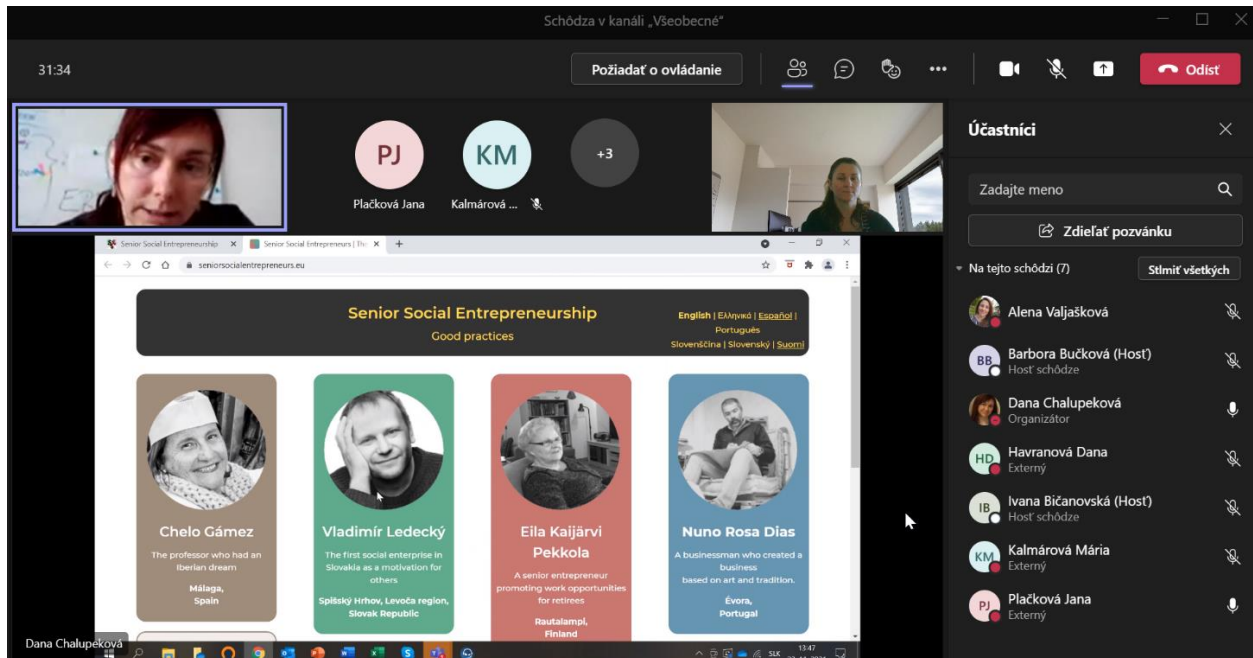

All events followed the same program. We presented our SSE project and its main objectives, we went through all the training modules in detail, we introduced all useful training materials, guidelines for lecturers, other activities available on e-platform as blog or forum, also available via mobile app. All participants were thankful for such broad material and expressed their intentions to use our materials within their work.

Although the online multiplier events in Slovakia were not attended by as many members as we would have liked, we think they were successful. Participants rated the project as beneficial, the presented materials seem useful to them, and expressed that they would pass them on to their colleagues who work with seniors and in their communities.

The first online multiplier event November 23rd, 2021

The first Slovakian multiplier event in ERASMUS+ projects SSE took place on the 23rd of November 2021 and served primarily to present the results of the project and to discuss them with stakeholders. The first ME was an online event and took place in the Microsoft Teams application environment.

The first ME was attended by 8 persons: lecturers who lead various courses for seniors, librarians who deal with their non-formal education, consultants of the University of the Third Age, and regional coordinators of the Regional centers of social economy in Slovakia.

The second online multiplier event December 14th, 2021

The second multiplier event in Slovakia took place again in the online environment of the MS Teams on the 14th of December 2021. The event was attended by 7 people: mostly the librarians who work with seniors, lecturers at the University of the Third Age, and a senior woman who works in a civic association.

The face to face event on December 9th

Fortunately, it was also possible to organize one small face to face event. On December 9th we received five experts from Slovakia and two experts from Poland where we could not only present the project but also discuss a possible collaboration with the EBI Association in Jastrzębie-Zdrój which is only 100 kilometres from our town. EBI has activities with senior citizens and is interested to translate part of the training materials.

23. november 2021 | 13:30 | online seminár
